## ABOUT ME

A detail-oriented software developer and fast learner. A highly motivated and dedicated individual with over ten years of experience in sales & marketing. I am seeking a career change to software development because I believe in the power of technology in creating a unique and limitless future for humanity. Additionally, I am a faster learner who can communicate and collaborate in a teamwork environment.

## PROJECTS

### My Yoga App | Individual Project | [View Code](#)

My Yoga App is an App design for the working busy people, who do not have time to drive to a yoga studio or to follow an hour-long video to practice yoga whenever they want. This App will help them to design their own time base yoga sequences.

Built with Single-page application using React, React Bootstrap, JSON. Implemented full CRUD functionality.

### Nutshell | Group Project | [View Code](#)

Nutshell is a full CRUD vanilla JavaScript application built in a group setting as part of the Nashville Software School curriculum. Features include up to date weather.

Information provided from an external API, event monitoring and friends lists.
